Dehorn Your Cattle

I will go to any place where there are six or more cattle to cehorn. I do the work with the Lightaing Dehoruer. Can dehorn any cow in three seconds. The knife makes a clean, smooth cut, does not crush nor break the horn, as the clipper does. It is the only humane way to dehorn. Does not punish the animal like the saw, and the wound gets well as quick again as that made by the saw. For further information, call on. G. A. PEVTON, Stanford, Kv. See the Lightning Pruning Hook.
